quinnj@northstonington.k12.ct.us

The students in Prekindergarten to Grade 5 have a computer class once per week.

All of the activities the students do in the lab are aligned with the CT Student Technology Competencies and the CT Core Standards.

At each grade level, I try to ~~connect~~ align learning the technology skills with the content and skills learned in the classroom.

Over the Summer...

...use your computer or device to learn to do something new. I will ask you about it at our first class in the fall!

...go on BrainPOP or BrainPOPjr (nslions and 1234)

Have a great summer!!!
