PETER L. NERO
SUPERINTENDENT OF SCHOOLS

DEBORAH MARTIN
BUSINESS MANAGER

October 3, 2018

Dear Parent/Guardian,

The Connecticut Department of Energy and Environmental Protection (DEEP) has found Eastern Equine Encephalitis (EEE) in human-biting mosquitoes in our town. No human or animal cases have been identified. As a school district, we will follow the Department of Public Health (DPH) recommendations.

Although the mosquito season is winding down, residents should continue to take precautions to avoid mosquito bites including:

- Minimizing time outdoors at dusk and dawn
- Ensuring door and window screens are tight-fitting and in good repair.
- Wearing shoes, socks, long pants, and long-sleeved shirts
- Clothing material should be tightly woven
- Using mosquito netting when sleeping outdoors
- Using mosquito repellent when necessary – in a safe manner according to the label instructions
- Communities curtail any outdoor activities after 7:00 p.m. They are recommending that evening activities be moved to day time hours

Sincerely,

Peter L. Nero
Superintendent of Schools
